Item 10(e) – Eskdale Road Grass Verges – Email from Resident

Good morning,

I hope this email finds you well.

Unfortunately, in this occasion I am writing to complain about the state of the grassed areas towards the bottom end of Eskdale Road, which covers outside the property numbers 42 & 44 Eskdale Road.

I am aware that there is very little in the way of parking spaces here as a majority of properties have drive ways. However, some consideration towards parking certainly wouldn't go amiss.

As you will see from the photographic evidence attached, the grass verges outside my property (44 Eskdale Road) & my neighbours property (42 Eskdale Road) has been churned due to vehicles parking and driving on them.

I have identified that these vehicles belong to trades people working on property numbers 44 & 45 Eskdale Road. As you will see in the photos, my neighbours at number 44 have a driveway & also a tarmac area prior to their boundary. There are also areas outside the property of number 45 which will be more sufficient than parking on a grass verge which is constantly being churned.

I am asking for and would appreciate something to be done about this. Perhaps some form of deterrent be placed in order to preserve the grassed areas such as small boulders or possibly wooden posts. The current state makes the street look shoddy, unpleasant and uncared for. It also shows a complete lack of respect towards the community.

I look forward to hearing from you.

Kind regards,

Sarah Dixey-King

44 Eskdale Road
